

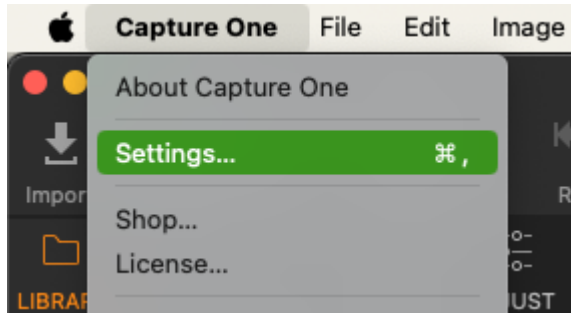

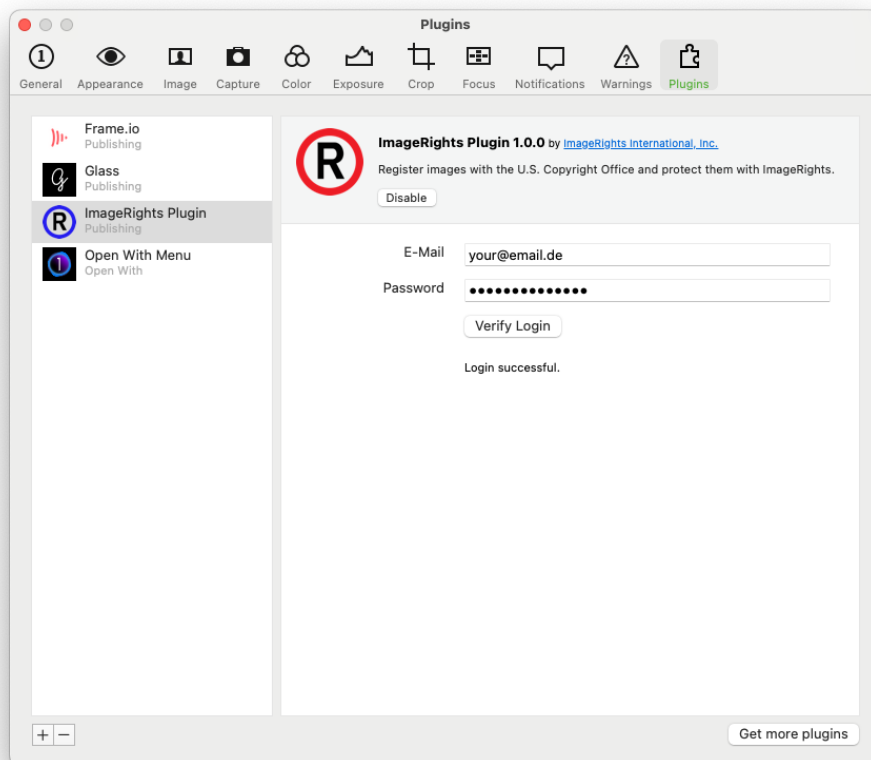

ImageRights Capture One Plug-In

Installation Instructions

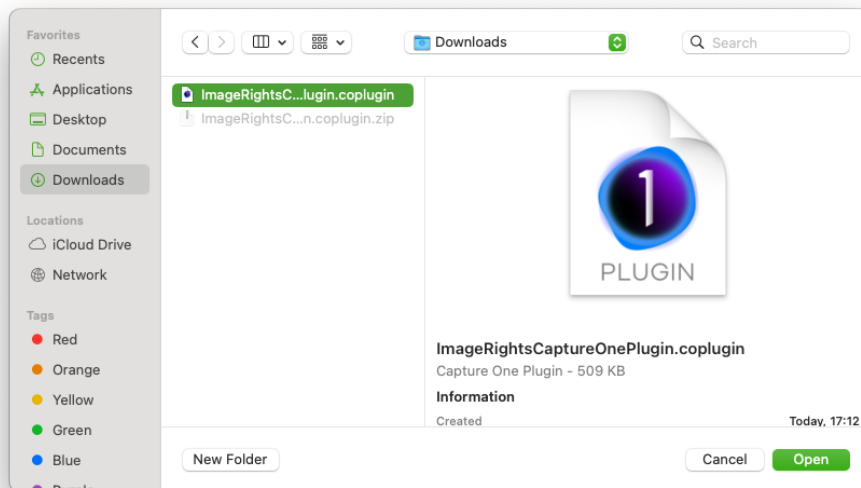

1. Start Capture One
2. In the Capture One context menu, select Settings...

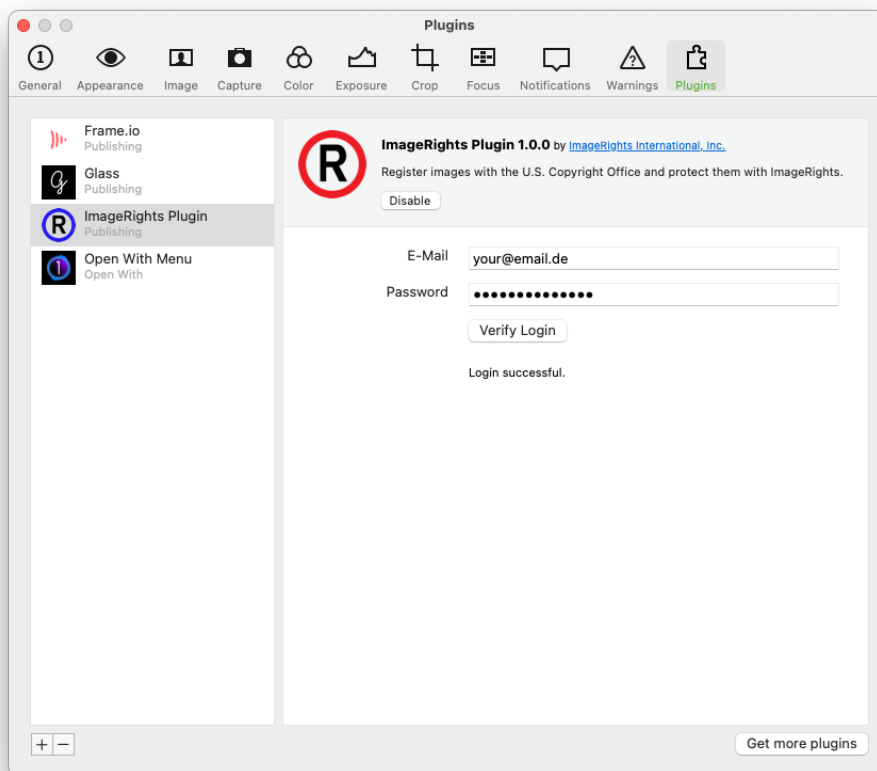

3. Open the Plugins tab
4. Click the small [+] button in the bottom left corner

5. Select the .coplugin file that was included in the ZIP file containing these instructions.

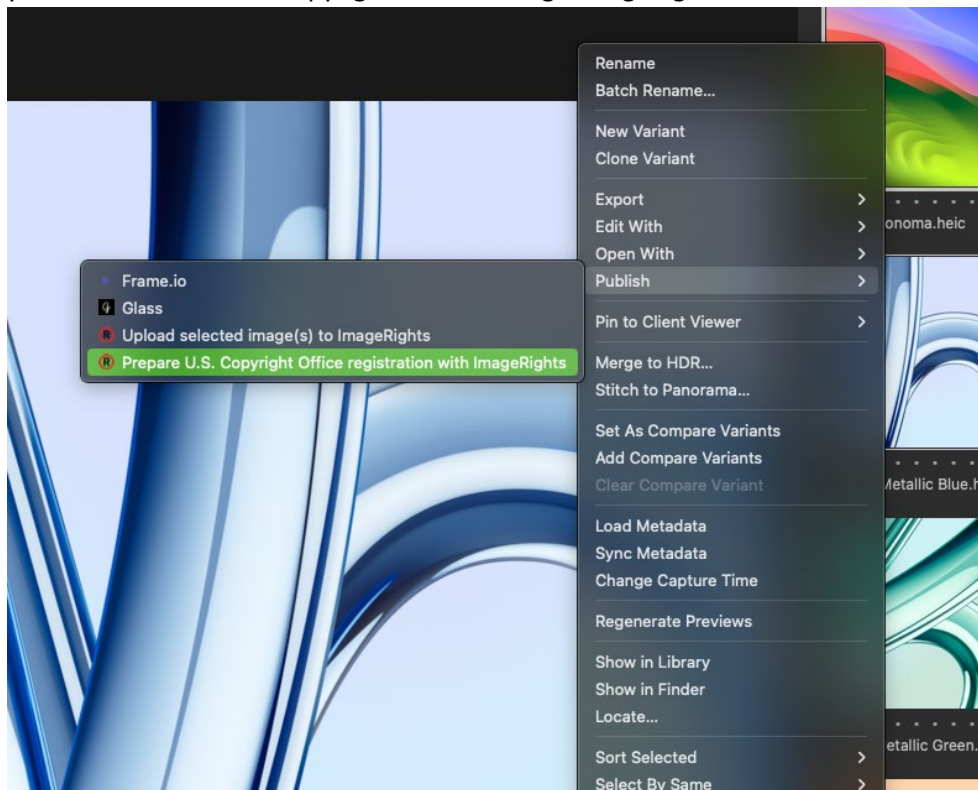

6. Capture One will now display the ImageRights plug-in and ask you to login with your ImageRights credentials:

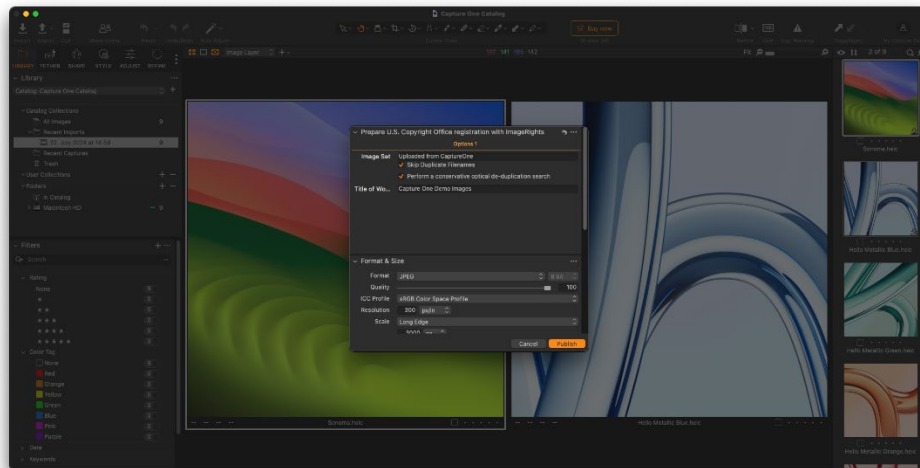

7. Click [Verify Login]

8. You can now right-click images in Capture One and use the Publish submenu for submitting your works to the U.S. Copyright Office through ImageRights.

9. Our Plugin will ask you for the Image Set name and the Title of Work

10. And then Capture One will upload the selected images into your ImageRights account
